- Questions

As with the baptism of the Holy Spirit, there has also been much confusion about the Gifts of the Spirit. Such as, what are they and are they applicable for today. I believe the Word of God, especially in the Book of Acts, shows us that the gifts are available for today and were not only for the early church. I believe God wants to manifest these gifts through the Church today as we receive a better understanding of what the gifts are and how to use them.
